## Project updates

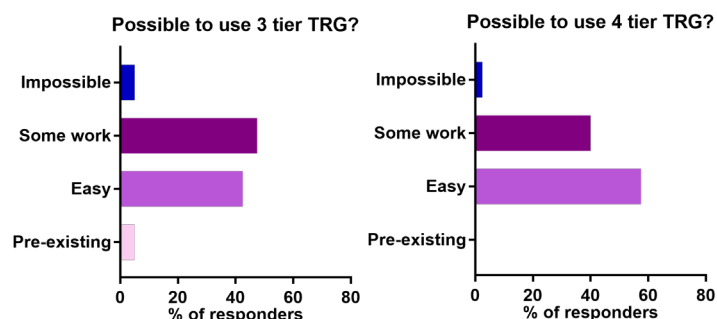

- **Research ethics:** SPACE-FLOT is approved in Australia, awaiting approval internationally
- **Research governance:** SPACE-FLOT seeking site-specific governance in Australia
- **TRG standardization survey:** Complete, thank you everyone and please see results below
- **REDCap database:** Version 1.0 complete, undergoing evaluation
- **Website:** Near-complete, coming online in November 2021
- **Communication accounts:** Twitter, Google, cloud drive, and WhatsApp. All accounts active
- **New members:** We welcome Dr Yick Ho Lam (South Australian lead) and A/Prof David Williams (GI pathologist) to the SPACE-FLOT project management group

## TRG standardization survey

- SurveyMonkey, 3-week survey period, 40 of 41 responders (98% response rate!)
- We thank all responders for your participation in this crucial planning survey
- TRG systems routinely used in pathological reporting across 39 of 40 sites

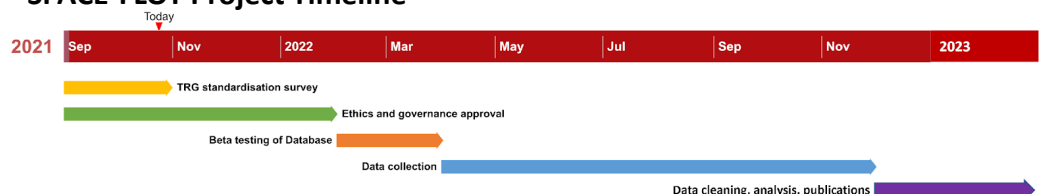

TRG systems	Tiers	Centres in use
Mandard	5	17
Ryan	4	8
College of American Pathologist (CAP)	4	3
Canadian Association of Pathologist (CAP)	4	1
WHO	4	1
AJCC	4	5
Becker	4	1
Chirieac	3	1
In house	3	2
% Tumour cells	NA	1

After pathological and steering committee review, SPACE-FLOT will conform to a 4 tier TRG using a modified Ryan classification. This will be adjusted centrally after data entry is completed

## SPACE-FLOT Project Timeline

## Next steps for ALL site investigators:

- **Please nominate** a local contact/personnel for us to liaise with to facilitate attaining ethics/governance approval at your site for this project
- **Please continue** with applications for research ethics, governance and data transfer agreements at your site
- **Please liaise** with Kat Hall and David Liu regarding any questions for this study
